## Upcoming Events

23rd Nov - Open Morning  
25th Nov - NLPs Climate Change Conference in school  
25th Nov - Odd Socks Day (Anti-Bullying)  
29th Nov - Year 11 Parents Evening  
4th Dec - Christmas Winter Fair  
7th Dec - Christmas Concert  
9th Dec - Christmas Jumper Day  
14th Dec - KS4 Music Trip to Handel's Messiah at the Royal Albert Hall  
16th Dec - School closes (half day)

# LEST WE FORGET

## THANK YOU

We would like to thank our last year's prefects for all their support and dedication. They have been great role-model and acted as a bridge between teachers and students.

They received gift vouchers as a reward for their commitment to the school's ethos. The application for this year's prefects has now started. We encourage students to apply so they can participate and challenge themselves.

*In Flanders Fields*  
BY JOHN MCCRAE

*In Flanders fields the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.*

*We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie,  
In Flanders fields.*

*Take up our quarrel with the foe:  
To you from failing hands we throw  
The torch; be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.*

*To mark remembrance day, our Director of Pastoral Care, Mrs Dhrona, visited the Chipperfield Memorial with a group of cyclists, where we read the poem 'In Flanders Fields'. We were fortunate to have met Doris, a World War 11 survivor, and we talked about her experiences.*

All staff and students paid tribute to those who have paid the ultimate sacrifice in the service of our country with a two-minute silence.

**As part of November, The National Career Development Month, we had a series of career talks from different professions**

# IN THE LAB

Mr Attiq Khan shared his insights on pursuing engineering for a professional career to our Year 9s and 10s. Students had the opportunity to share engineering problems that they witnessed and to provide solutions for them.

Senior students investigated the effect of light intensity on the rate of photosynthesis using an aquatic organism, pondweed!

Mr Ali Zaman and Mr Naim Hasani were guest speakers for the Year 8 PSHE lesson where students listened to their prospective journeys in Database Marketing and in Law.

Mr Zaman talked about the importance of overcoming challenges and the new trends in flexible work environments as he works globally with people across many time zones.

On the other hand, Mr Hasani shared human stories from his profession and how rewarding it feels to defend people in court while emphasizing the importance of patience and perseverance in being a lawyer.

## New sport, Hockey!

What a fantastic way to begin hockey lessons in PE. Children have been extremely busy learning new skills with Ms Horwitz.

## Stay motivated!

The Year 11 students were treated to Pizza Hut and the new movie Black Panther: Wakanda Forever as a reward for all their hard work in studying for their mock exams.

## GCSE GEOGRAPHY TRIP TO STRATFORD

Discovering the different, unique parts of Stratford and being able to identify what makes Stratford a key economic hub was an incredible experience for me.

The human fieldwork trip links to GCSE Geography Paper 3, where we need to explain all the different types of surveys we did in Stratford. During this trip, we developed fieldwork skills but also had to work as a team effectively.

As geography students, we had to plan, carry out, discuss and evaluate a range of fieldwork techniques at Stratford. For example, we took a bipolar survey and created a tally chart to highlight how the services were much better today than in 2006. We looked at how economic growth had affected services, the environment and land use at Stratford. At the end of our field trip, we checked if our hypothesis we created at the beginning was correct or not as well.

It was a successful journey where I was able to achieve all the learning objectives and answer the three key questions correctly.

**Thia, Year 10**

This week, NLGS students took part in the Model United Nations (MUN) training that was hosted at The American School in London.

They attended a three-hour session that served as the beginning of their MUN experience, in which they will tackle important global topics. We are delighted to see our NLGS students participating.

## FIFA World Cup begins this Sunday!

**There will be many cross-curricular activities to celebrate the world cup in the upcoming weeks.**

Students had an assembly on World Cup, learning all about the history of the world cup, how it's structured and the geography of the host country Qatar.

**BBC  
Children  
in Need**

## England Vs USA Let's watch it together

With the World Cup starting this Sunday, we thought it would be an excellent chance for all of us to come together as a school community.

We are planning to have the England Vs USA game live in the school dining hall. It would be great to have as many of you watching the game with us. There will also be refreshments provided.

If you are interested in attending, please fill out the form.

**[CLICK HERE](#)**

**NLPS all dressed up for Children in Need today! The theme was 'be yourself.'**

**I WISH...**

There is 'Wish Jar' in student services that is available for students to come and place a wish for vulnerable children across the UK, and worldwide.

Andy Goldsworthy

**LAST  
WEEK  
IN ART**

Year 7s have been studying the work of Andy Goldsworthy in their Art lessons. Goldsworthy is a land artist who uses only natural materials like leaves, twigs, sand, ice and snow, creating shapes and illusions.

Last week our students designed and made their own natural sculptures using leaves, twigs and stones that they found outside, creating shapes, gradating colours and experimenting with creating circles, spirals and other interesting shapes and forms and then photographing them.
